## Customer Reviews

This book is helping me plan a trip to Europe with my Aunt, who is a great travel companion, but doesn't quite have the physical stamina of years past. I like the accessibility codes, and recommendations for "easy access" Euro cities. My Aunt likes the larger type. Really a useful book.

This book was excellent and a huge help in terms of links to places to find additional information for those with mobility issues, the ONLY improvement I could see is if there were an updated version since this is 8 years old now, and would also love to see some additional cities in Europe not included like Switzerland and Italy for instance

Rick's books are like bibles for the traveler. Wherever we travel to we see people packing them and using them as a reference. So well written with such great practical information. I wouldn't leave home without it. This book is a great overview for Europe.

This book is great! It helped us to know where to go at each location in order to find accessible entrances and special rates. It made our vacation a real success. London was especially accessible and the people were very helpful. There are family bathrooms everywhere in London. Paris was a little more difficult but still nice.

Since I am going to Italy, I thought this book would be most helpful. As it is, it only covers a few cities in Europe and does not include Italy. It does not tell you that when ordering. So buyer, beware

Rick Steves books and programs are always good. And this is no disappointment. Great ideas for the traveler with limitations. Hope to use some of the ideas he suggests, in the near future. Great book!

it's good to see someone spend the time to bring out a book for travelling in Europe for people with limited mobility, but this book has only London, Paris, Belgium, Amsterdam and a little of Germany. So it's not really easy access Europe is it. Where is the rest of Europe, etc Spain, Italy, Austria etc? can be improved...

This book was very helpful in making my first trip to Europe enjoyable and accessible.
