Museum Exhibition (Heritage: Care-Preservation-Management)

Synopsis

Museum Exhibition is the only textbook of its kind to consider exhibition development using both theory and practice in an integrated approach. This comprehensive study covers care of exhibits, writing accompanying text, using new technology, exhibition evaluation, administration and content for a wide range of collections. It provides a complete outline for all those concerned with providing displays in museums and other cultural heritage contexts.

Customer Reviews

This textbook provides to those interested in setting-up museum exhibitions a proper procedure to manage and develop such activities. Each chapter will take you to different phases required in the process to present a museum exhibition. Appendix 2 "Exhibition Request Form" and Appendix 3 "Checklist for Exhibition Development", I found of great value for the person in-charge of managing the exhibition "project". I recommend this book to anyone interested on learning how to properly handle a museum exhibition and wants to know about its "theory and practice".
