Customer Reviews

This is used as a textbook for my class; I am almost finished reading it and have found it very informative with lots of 'tips' for all nurse educators; it will be a resource as I pursue my new career as a Nurse Educator...

I ordered the book from [Amazon](#) and was so disappointed at the size of the book compared to the cost, that I returned it. Big mistake. I then rented it online and wished that I had kept the text. The author's easy reading style does not minimize the content and refreshing perspective that she gives to the topic. This book is a keeper.

Great book, easy, conversational style of writing. Offers encouragement and practical

recommendations for new nurse educators.
